

Sample NAOSH Week Word Scramble

A treasure-hunt-style word scramble for everyone in your workplace can be a simple, fun and effective way to refresh everyone's knowledge about the location of important items that you have on-site, such as first aid kits, automated external defibrillators (AEDs), emergency exits, muster stations, MSDS binders, and company safety manuals, etc.

To create your own treasure-hunt-style word scramble, first select a meaningful word or phrase, determine the number of letters needed for the word or phrase and then randomly assign and tape each letter on the first aid kits, AEDs, emergency exits, etc., (taping one letter per item). For example, if your chosen phrase is WORKING SAFE PAYS you'll need the 15 letters randomly taped to 15 items. Be sure to let the players know how many of each item they need to locate for the letter clues (for example, 3 first aid kits, 2 AEDs, etc.).

For the sample word scramble below, if the letters P-W-O-N-K-S-I-A-G-F-E-Y-A-R-S were randomly assigned to the listed items in the workplace, the letters would be unscrambled to arrive at the phrase WORKING SAFE PAYS)

To create your own safety message word scramble, select a word or phrase and apply the letters randomly to the items in your workplace. Remember to alter the sample below to indicate the number of each type of item and the corresponding letters.

SAMPLE:

Find the following items throughout our building. Write down the letter you will find at each location and unscramble the word below.

Three First Aid Kits _____

Two AEDs _____

Five Emergency Exits _____

Safety Manual _____

MSDS Binder _____

Eye-wash Station _____

Two Emergency Evacuation Muster Stations _____

Unscramble the letters to solve the puzzle:
